**RE:** 1:20.3 SCALE WEST SIDE LUMBER CO. HEISLER #3, BUTANE FIRED  
(DELIVERY 2014)

Accucraft Trains (ACLS - Accucraft Live Steam Limited) is proud to announce the West Side Lumber Co. Heisler #3 in 1:20.3 scale, 45mm gauge live steam. These fine scale butane fired models will be constructed from brass and stainless steel. The following features are included:

- Fine scale brass model
- 60 psi working pressure
- Pressure gauge
- Water sight glass
- Lubricator
- Hand water pump

All **Accucraft Trains** models are designed and built to exacting standards from carefully researched plans and prototype measurements. We painstakingly hand-craft every part from brass and stainless steel. Every effort is made to ensure the highest quality in what we build.

SKU #	DESCRIPTION	LIST PRICE
