SPRING 2009

Dear Accucraft Customer,

It has been a long time since our last product update. We apologize for the recent lack of information.

We have many exciting projects under development. The Mason Bogie, Climax, and the SP narrow gauge locomotives will be some of the finest models from Accucraft. We also spent a lot of time working closely with our suppliers on improving product quality, reliability and functionality. Our most recent project, the "Canadian Royal Hudson" Live Steam, received many positive compliments from our customers.

We want to express our appreciation for your continued support. Please let us know how we can further provide you with better products and services. The following is an update of our upcoming projects, future projects and projects under consideration.

Models Coming Soon....

(The following projects are under production. Some are still open for reservations. Please contact your Accucraft dealer or call us for availability)

- Southern Pacific F4/F5 live steam, Summer 2009
- Forney live steam, Summer 2009
- K-36 live steam, Fall 2009

Future Releases....

(The following projects are under development. Please contact your Accucraft dealer to place your order)
